

# Dyna-Trax™ GPS

Spray Recording and Vehicle Monitoring System

Curtis Dyna-Fog has partnered with the GPS leader to give you Dyna-Trax, the highest performing, most affordable GPS system on the market. Dyna-Trax has the capability to record several different events along a vehicle's route, and is compatible with any sprayer or fogger. All of this with total wireless data transfer to any desktop PC, Handheld or Laptop!

## Dyna-Trax Advantages

- No monthly fees\*
- The industry's first automatic wireless data transfer from vehicle to PC
- No memory cards to lose or get damaged
- Guaranteed to use the latest GPS Technology
- Easy to use, maintenance free hardware design
- Produces more printable reports than any other system of its kind
- Vehicle monitoring and reporting reduces fuel usage
- Service & Support in every major city

## Dyna-Trax Features

- Uses colors and various shapes to differentiate recorded functions on map
- Audible Alert capability changes color on map when activated
- View Flow Rate and Vehicle Speed by clicking any recorded point on map
- Reports display Username, Date and Area sprayed, On-Time, Off-Time, Amount Sprayed and more
- Selectable English and Metric Units
- Multiple Event Tracking capability
- Latest mapping software included enable accurate street locations and addresses
