

Dyna-Fog® **Black**  **- Pro**™

*The #1 Choice For Large Area Thermal-Fogging*

From the world's leader in thermal fog technology comes the Blackhawk-Pro... designed for doing a wide range of fogging applications rapidly and economically. The Blackhawk's patented Electric Starting System enables fast engine starting every time. Each unit is equipped with a 12 Volt positive displacement pumping system to provide accurate flow control from 0-75 liters/hr. regardless of the chemical being used.

**Specifications for Model 2620, Series 2**

Type:	Thermal aerosol-fog, petroleum based, resonant pulse principle
Formulation Output:	0-75 Liters/Hour (Over 3000m <sup>3</sup> of effective fog/min)
Engine Performance :	38 kW-Hr. (51 hp-hr)
Ignition System:	"Buzzer" Type Ignition Coil powered by either 1.5 Volt "D" Batteries or 12 VDC automobile adaptor
Formulation Tank:	50 Liter Stainless Steel
Gasoline Tank:	4.5 Liter Stainless Steel
<u>Dimensions</u>	
L X W X H (cm):	173.5 X 38.1 X42.7
Machine Weight:	18.6 Kg (empty)
